MILLER
PROSTHETICS & ORTHOTICS

*Take a step
toward comfort.*

*"Miller Prosthetics and Mark
go the extra mile. They aren't
happy until you're happy. My
quality of life is 100% better
ever since I visited Miller
Prosthetics." — Brian Hyson*

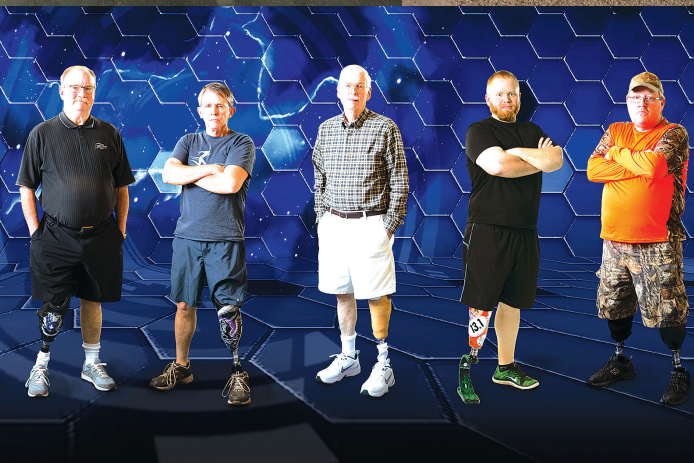

Our mission is to enrich the lives of amputees and orthotics patients.

100% of our patients would recommend us to their friends or family if they were in need of similar services.*

*Quality Outcomes, LLC. surveys and measures our patient satisfaction. Survey results from January 1, 2014 – January 31, 2018.

MILLER PROSTHETICS & ORTHOTICS provides adult and pediatric patients with a comfortable and functional fit for artificial limbs, orthotic braces and supports, and cranial helmets which helps to reach the goal of returning to their normal lifestyle. We provide outstanding patient satisfaction at all levels, and will always be on the leading edge of technology. We are a goal oriented, patient centered, outcome driven practice.

PROSTHETICS:

- Adult and pediatric patients
- Every activity level from house-hold ambulator to athlete
- State-of-the-art technology for vacuum fit, suction sockets as well as traditional pin-lock sockets
- Laser measured, fit and designed with the latest computer aided design (CAD) technology
- Customized sockets that make you want to "Show Your Mettle"

"I can walk my dog now. Before I couldn't even walk to my truck. My foot pain is gone because of my custom arch supports. I can even play volleyball again, thanks to Miller Prosthetics & Orthotics! — Dan Mason

CUSTOM & OFF-THE-SHELF ORTHOTICS:

- Eliminate pain without surgery or medicine, assists during healing process
- Treats conditions such as:
 - Drop foot
 - Plantar Fasciitis
 - Back pain
 - Knee pain
 - Carpal/tarsal tunnel
 - Arthritis

We custom fabricate and fit orthotics such as:

- Foot orthotics (arch supports)
- Ankle-foot orthoses (AFO's)
- Back, knee and ankle braces
- Wrist, elbow, shoulder braces
- Knee-ankle foot orthoses (KAFO's)
- Pediatric Specialty
- Custom Cranial Helmets

"Children require specialized consideration for treatment due to the changes of growth and development, as well as a long term outlook on their prognosis."
— Sean Greer
